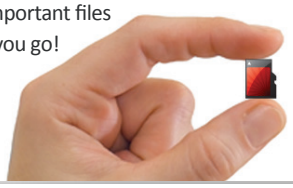
3G smart cellular phone

Android 4.0.4™ platform
The Android platform provides freedom, innovation and flexibility for all your mobile applications

4.0" high resolution touchscreen
The capacitive multitouch screen is cleverly complemented by a digital QWERTY keypad.

Micro SD card slot
A host of flexible storage options is made possible thanks to its integrated SD card slot, which allows you to install memories of up to 32 GB, and carry your entire music collection, photos and important files with you.... everywhere you go!



Shoot with confidence
The built-in camera with zoom means that you will never miss a photo opportunity ever again. This high quality camera is also capable of recording and viewing compelling videos, using the latest image formats.

3G mobile network
Operates on a dual-band HSPA (WCDMA) wireless network, and supports quad-band GSM enhanced 2G, for reliable voice and data communications.

Dual SIM cards
This versatile mobile phone gives you more freedom by allowing you to install two SIM cards in a single phone. The dual SIM functionality enables users to connect to two different networks.

Bluetooth® compatibility
This phone easily pairs with Bluetooth® devices, so you can stream music, pick up calls or enjoy your favorite TV shows without wires –or hassles.

GPS capability
The smart way to find your route quickly and easily, whether walking or driving. Get maps, voice directions and turn-by-turn navigation, including street and aerial views of the location you want to find, *completely free*.
